Course Descriptors and Notes

Applied Music 2206 / 3206 – This course is designed for the beginning, intermediate and advanced Guitar and/or Ukulele player. Study is based on the individual student's level.

Drama 2206 – Explores the various areas of Drama through different dramatic forms. This is not a performance based course but active student participation is required.

Ensemble Performance 3105 (Band) – This course takes place outside of the instructional day. Students who select this course can take 15 credits.

Entrepreneurship 3209 - This course introduces students to the idea of entrepreneurship and enables them to better understand its role in society.

French 2200 – Core French. This is a communication course aimed at developing speaking, reading, writing and representing ideas in French. Instruction and evaluation are thematic and project based.

French 3200 – *Pre-requisite is French 2200.* This is a communication course aimed at developing speaking, reading, writing and representing ideas in French. Instruction and evaluation are thematic and project based.

Human Dynamics 2201 – Students explore each family member's role within the family unit. This course has a "Real Care Baby" that each student will have to care for over a 48 hour period.

Math 3200 – *Pre-requisite is Math 2200.* This Pre-Calculus course is intended for students who wish to study sciences, engineering, mathematics, or business in university. Pre-Calculus 3200 is a Public Exam course.

Math 3208 – *Co-requisite is Math 3200.* This is an optional course which is designed to cover the same material as a first course in university level Calculus. At the end of this Calculus course, students may challenge a final exam for Math 1000 to earn advanced credit from Memorial University.

Occupational Health and Safety 3203 – This course is designed to introduce students to occupational health and safety principles as they prepare to enter the workplace in their chosen careers.

Phys. Ed 3100/3101 – This course is an activity based course which focus on developing and understanding personal movement skills that contribute to an active lifestyle throughout life.

Power & Energy 3201 – This course investigates how small engines and energy systems work. Students also learn how to repair and assemble small engines.

Skilled Trades 1201 – This course explores skilled trades (carpentry, plumbing, electrical, drywall, plastering and painting) through hands on application.

Textiles 3101 / Nutrition 3102 – Textiles 3101 guides students through a study of apparel and household textiles. Nutrition 3102 examines an individual's overall health and the factors that influence it, such as media, lifestyle, and medical history.

Visual Art 3202 - An advanced studio-based course that will enable students to further develop their knowledge and skills in visual arts through practical application within five visual art disciplines.

World Literature 3207 - Offers exposure to a wide range of texts chosen from numerous cultures and countries. Immersion within these texts provides students the opportunity to explore a multitude of world views while developing, reshaping or enhancing their own.

World Religions 3101 / 3106 – This course is designed to explore the world's living belief systems. Throughout the year 14 different religions / faiths are studied.

Writing 2203 – Designed to accommodate a wide range of student interests and abilities and offers students an opportunity to explore writing as a means of personal expression as well as a method of communication.
